

Pendant light

ATELIER LAMP

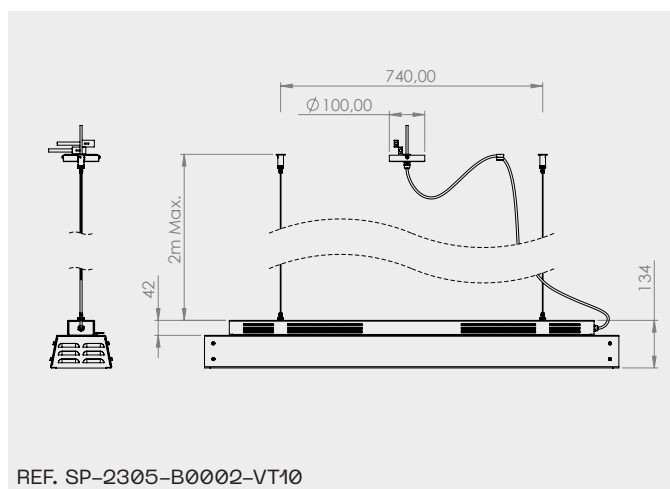

A.S.L x BROSSIER SADERNE

The Atelier lamp is an archetype of highly functional lighting, with its long shape and directional shade providing effective lighting for counters, catering areas or offices. It plays a role in the design of a space, structured by its horizontality.

Resulting from a partnership between ASL design studio and lighting manufacturer Brossier Saderne, it is 100% made in France.

The Atelier lamp is available in standard green and black, or in 27 other shades.
